| <input type="checkbox"/> Electrical Safety/Lockout/Tagout | <input type="checkbox"/> Hearing Conservation   |  |
| <input type="checkbox"/> Emergency Response               | <input type="checkbox"/> Heat Stress            |  |

**Proper employee training is an area where regulatory agencies are focusing their attention.** Environmental regulatory agencies are targeting specific areas such as Hazardous Waste Management while the Occupational Safety and Health Administration (OSHA) is targeting specific areas where safety issues are involved.

To avoid violations, proper training (simply showing a film is **not** enough) needs to be provided to your employees. Your facility needs to be in compliance with training requirements to avoid being charged with a willful violation by OSHA in case of an injury or a fatality.

**CTI provides high quality, site-specific training that will provide cost effective compliance with OSHA and environmental regulators' training requirements. Hundreds of facilities have received our training, enabling them to achieve full compliance.**

- Site Specific
- Interactive
- Comprehensive

If you are interested in receiving a quote for EHS training or other consulting services, please fill out the reverse side of this page and fax it to 770.263.8348, mail it, or feel free to contact LeRoy Bishop, P.E. at 770.263.6330, or by e-mail. We welcome every opportunity to work with you.
