

NATIONAL ENVIRONMENTAL PERFORMANCE TRACK MEMBERSHIP

Performance Track is a voluntary EPA performance incentive program designed to recognize environmental excellence and reward businesses that demonstrate strong environmental performance beyond current legal requirements.

Members of Performance Track improve the quality of our nation's air, water, and land by setting goals to reduce their environmental impact and to better their environmental management. Membership is open to facilities of all types including major corporations, small businesses, and public facilities that are steering a course toward environmental excellence.

Facilities applying to NEPT must meet the following criteria:

- ⇒ An Environmental Management System (EMS) in place including a completed Independent Assessment of the EMS.
- ⇒ A record of compliance with environmental requirements as well as a commitment to maintain the level of compliance necessary for the program.
- ⇒ Past environmental achievements as well as quantitative goals for improving environmental compliance.
- ⇒ A commitment to public outreach in the community.
- ⇒ An Annual Performance Report or each year of membership.

CTI can assist companies gain NEPT membership. CTI's services relating to Performance Track Membership include the preparation and management of NEPT application documents, as well as performing site inspections necessary for entry into the program. If a facility does not have the required Environmental Management System (EMS), CTI can install the system and also perform the Independent Assessment required.

Services Offered:

- ❖ NEPT Application Preparation and Management
- ❖ Environmental Management System (EMS)
- ❖ Independent EMS Assessment
- ❖ Annual Performance Reports
